NEW · DESIGN

Mobile Heated Trolley

Designed specifically for hospital use, incorporating durable construction, ergonomic handling, and efficient heating performance

	Mobile Heated
Temp Range(°C)	+78 / +82
External Dimension (mm)	W 545
	D 800
	H 1400
Capacity (litres)	230
Power Supply	220V/50HZ/1PH 13 amp plug
Power Input - Running (amps)	4.5
Rating Power (watts)	990
Trayslides (pair)	12

- Black colour bond exterior and foodsafe 304 grade 2B finish stainless steel interior
- 160Hmm heavy duty and non-marking swivel castors for easy positioning, and 2 braked castors at front for easy locking
- Horizontal rear handle positioned at 1100mm from the ground for ergonomic pushing
- 2.5m retractable power cable mounted discreetly under the rear horizontal handle to avoid user interference and reduce risk of damage
- Accommodates 1/1 GN size, 12-layer capacity with standard 80mm pitch between tray slides
- Integrated anti-tilt tray slides support system for stability when loading/ unloading containers, tray slides and ladders are fully removable for ease of cleaning and maintenance.
- Conductive anti-static strap installed to prevent electrostatic discharge, it ensures safety in electrically sensitive hospital environments
- 270 Degree Door Opening with magnetic door holders to secure doors in open position during loading/ unloading
- Stainless steel toggle latch designed for quick and effortless operation, enhancing both safety and workflow efficiency in hospital environment
- Designed to reach operational temperature within 15 minutes of activation
- Precise injection and high density polyurethane insulation. Provides excellent thermal efficiency with low GWP (Global Warming Potential) and zero ODP (Ozone Depletion Potential)
- Digital controller for easy operation and fail-safe performance, featuring clear digital display

Available Options

1. Central brake castors for simultaneous locking
2. Card slot
